

The Law Office of Ben W. Koyl, P.C.

Client Testimonials*

Dear Attorney Ben W. Koyl,

Please accept this email as a thank you letter for your work and others who helped in acquiring a discharge order for me. Paul's kindness and his willing attitude to help me go through the process of filing bankruptcy made it easy to accept my financial situation. He was available when I needed an explanation about issues that caused me to worry. He was not judgmental and his attitude of kindness remained the same. Thanks Paul!

It was a bold move for me to accept the introduction of your office on the phone, after finding it in the yellow pages and without any knowledge about your credentials. To my surprise the first appointment was pleasant and without pain. Paul was friendly, helpful and had a wealth of knowledge about the procedure. He reached across the desk with a firm hand shake after the meeting and reassured me that I could trust the law firm. He was available to answer my questions, which helped me to believe his word. I pray for your success in helping others because you are honest and do not overcharge a person who needs your help. Your office was willing to workout a payment plan that allowed me to live with less and still pay you.

The financial courses that were required before the court appearance was educational and helpful. It made me aware of others who have had the same problem and did not know how to manage their finances after the lost of employment and trying to live on credit cards. It gave me hope and demonstrated a method for creating long term goals, short term goals, and preparing a realistic budget on a monthly schedule. The Quicken Personal Financial software program, which I purchased and am using, is a great help.

Hopefully, in the new year I will have a job and can begin to save money for the future. My future looks bright because of your help and the opportunity to begin a new career in the medical field after I pass a State exam.

I had a great experience with your office. I am recommending your law firm and staff to anyone who needs help with their financial situation because of my experience. Thanks again!

"I fully recommend Ben Koyl as a great, conscientious, industrious and intelligent lawyer -- he gives more attention to you and your case than any mega-law firms and he knows the law. Ben is extremely knowledgeable in all aspects of bankruptcy as well as being equal to the task of virtually any situation requiring legal representation. I've personally used Ben and have been very pleased with his work, results and service. Further, I've referred some of my clients and a colleague from the social service organization I work for to his firm for legal consultation and representation and gotten rave reviews from them in regards to Ben's attention and get-things-done approach. Ben Koyl is a good choice as your lawyer."
